4th Year, B.Tech Student
Computer Science and Engineering
Techno International Newtown,Kolkata

EDUCATION

Degree	Institute	CGPA/Percentage	Year
B.tech(CSE)	Techno International Newtown ,Kolkata	8.265 (till 6th sem)	2020-2024

TECHNICAL SKILLS

- **Languages**: C/C++*, Java
- **Frameworks**: ReactJS , JavaScript
- **Web Development**: HTML, CSS, JavaScript, React
- **Databases**: MySQL
- **Tools and Platforms**: Git

PROJECTS

- **Hospital Management System** *Dec. 2023 - till now*

  - 1. Designed and developed a Hospital Management System as a final year project, demonstrating my proficiency in programming, database management, and user interface design. The system efficiently manages hospital operations, including patient registration, appointment scheduling, medical record keeping, doctor's consultation, and billing.
  - 2.Built the system using a modern technology stack, including HTML, CSS, JavaScript, PHP, and MySQL, and implemented best practices in software development, such as version control, testing, and documentation. The system provides a seamless user experience, a responsive design, and robust security features to protect patient data.
  - 3.Demonstrated my ability to work independently, manage complex projects, and deliver high-quality software solutions in a timely and efficient manner.

- **Portfolio** *Sept. 2023 - Nov. 2023*
  Github

  - 1. Developed a dynamic portfolio website using HTML, CSS, and JavaScript to demonstrate my skills and showcase my projects as a web developer.
  - 2. The website functions as a visual representation of my proficiency in front-end technologies, highlighting my expertise in creating visually appealing and intuitive user interfaces.
  - 3. The site incorporates a responsive design using Bootstrap, a popular front-end CSS framework for developing responsive and mobile-friendly websites.
  - 4. Created the folder structure, including index.html, style.css, script.js, and an images folder.

- **Payment Gateway** *April. 2023 - June. 2023*
  Github

  - It is a basic Frontend project. It is a donation website where people can donate to a NGO . Features: Get to know about the NGO. Donate any amount to the NGO Receive donation receipt via Email. Tech stack used:- HTML, CSS, JAVASCRIPT An individual project , executed in 5 days.

CERTIFICATES

The Complete C++ programming course-Build 10 computer Apps (06/2021 - 07/2021)
The Complete C# Developers:Code the Right Way (06/2021 - 07/2021)

ACHIEVEMENTS

Solved more than 100 questions on **Leetcode**, DSA concepts , 2024

ABOUT ME

Highly motivated and enthusiastic software engineering graduate with excellent problem-solving skills and have ability to perform well in the team. Passionate about coding and development.
